

I'm Looking For...

Administration

[Home](#) > [FAQs](#)

How long will these new streets last?

With proper preventative maintenance – periodic seal coating and mill and overlay – the new streets are expected to last 40 to 50 years

▼ PUBLIC WORKS – STREETS – PAVEMENT MANAGEMENT

[Show All Answers](#)

1. How long will these new streets last?

With proper preventative maintenance – periodic seal coating and mill and overlay – the new streets are expected to last 40 to 50 years

2. Are projects assessed; what is the cost; and how can I pay for the assessment?
